Howard—fyi, re: Julie's media calls today on Columbia Falls, there are current TPs (and pending material) being coordinated through Libby Faulk's group.

Seems pretty straightforward.

Rich,

We're doing a site reassessment at the Columbia Falls Aluminum Facility. Senators Tester and Baucus requested that we evaluate the site for the NPL. The site reassessment is part of that process and will provide some idea whether or not the site has contamination that is migrating off site.

We've put together some talking points and Qs and As. Libby was going to put together a more developed comm strat for us. I've also attached our response letter to Senators Tester and Baucus from Judy Wong (signed for Howard).

Rob

Hey gents—do you have any info you can share on TPs or other external comm. stuff on Columbia Falls aluminum plant?  
Thanks!
